Your Health Cannot Be Placed On Pause...

We Shift The Focus Of Care Toward Always-On Healthcare

Virtual Health Desk assigns dedicated and knowledgeable physicians to each patient, designing unique care plans for each individual.

Our team will assist you to get prescriptions refilled, guide you to follow through with post-appointment care, and answer all of your questions.

How Do We Do It?

- You will be assigned to corresponding care plan supervising physicians on our staff.
- They will then have strict responsibilities around supporting your health and lifestyle.
- Our technology suite includes tools for close communication with your care coordination network – including your records, prescriptions, and other pertinent information – which ensures your care is on point.
- Care is finally available to you around the clock – you can contact us at any time with questions, follow ups, or concerns.

Better Care Is Finally Here

Virtual Health Desk brings the care you deserve, regardless of where you live.

- You will receive personalized physician supervision on your recommended care plans through our care managers, who are involved with your care coordination every step of the way.
- Virtual Health Desk offers constant support to educate on improving your healthcare and lifestyle, as well as medical advice on how to prevent health issues in the future.
- Social Services support is provided to all patients, just as with your primary healthcare practice.

Coverage From Every Angle

Our services are covered by Medicare and other insurance policies, in continuity and compliance with the care you already receive. With Virtual Health Desk, you can rest assured that you are covered with top quality care

Ready To Take Back Control On Your Health?

It's important to have an open line of communication with your current care providers, so talk to them about why you believe implementing Virtual Health Desk would be beneficial to you and your care.
